In Olden Days, Among Other Accomplishments, Woman Was Required to Be Expert Carver.

In the matter of old time etiquette at the table one recalls the part played by the lady of the household. In the eighteenth century she was mistress of the ceremonies—she curved and she dealt the white her lord mere-

gave a dinner of several courses it was her duty to announce to the guests, seated expectantly, what was due to appear at table. A dinner of one course and she remarked that they was their dinner.

Then her powers of gentle persua sion came into play. A guest when he had stuffed sufficiently placed the handles of his knife and fork tate his plate, and the sight of a knife in posttion was the signal for the hostess to inquire "if he would please to have omething more."

In the art of carving, of course, the mistress of any country house was a past mistress. One recalls Lady Mary Montaga's flight after perfec tion under the wing of a professional carving master: "She took three les-sons a week, that she might be perfect on her father's public days; when, it order to perform her functions with out interruptions, she was forced to est her own dinner alone an hour or

Wants Other Women to Know How She Was Finally Restored to Health.

Louisiana, Mo.:-"I think a woman naturally dislikes to make her troubles

known to the public, but complete restoration to health means so much to me that I cannot keep from telling mine for the sake of other suffer-

and was getting worse all the time. I would hardly get over one spell when I would be sick again. No tongue can tell what I suffered from cramps, and at times I could hardly walk. The doctors said I might die at one of those times, but I took Lydia E. Pinkham's Vegetable Compound and got better right away.
